

Canadian Conference
of Mennonite Brethren Churches

Video Update – October 2018

Elton DaSilva, CCMBC National Director

Greetings MB Churches of Canada

I have heard from many of you that Gathering 2018 was uplifting and encouraging. During our time together in Saskatoon, there were several developments that are of significance for our family of churches. The 236 delegates at Gathering affirmed with a 97% vote the development of the new collaborative model. Since our time together in the summer, boards, staff, leaders of agencies, and provincial conferences have been meeting regularly to define the parameters of this new model. Since paramount to this model is the voice of the church we want to hear from you. To that end, together with provincial conferences, we are holding regional meetings this fall in each region where conference is established.

We want to extend invitation to congregational leaders, members and attendees to join us at a meeting in your region. During this time our plan is to update you on the work presently being done as well as gather feedback and clarify any concerns you may have. Your presence and voice matters. Please note the dates and location on the screen and plan to join us.

I look forward to meeting with you so that together we can shape a vision for the future of our denomination.
